

Prep Chefs at Work!

Our Prep chefs participated in full swing and fostered their creativity by preparing lip smacking '**Chocolate Crumble Cake**'.

To make Chocolate Crumble Cake, they enthusiastically followed their teacher's instructions. While pursuing this activity they enhanced their vocabulary by learning new terms like crumble, squeeze, hold etc.

Teachers explained to the children that it is very important to wash their hands before and after cooking the food. After the completion of the activity, the children relished eating their 'Chocolate Crumble Cake!'
