

Introduction of Google Classroom for Grade V

21st Oct 2019

Dear Parents,

We are pleased to inform you that we are introducing Google Classroom for our Grade V students.

The Google Classroom is an online interactive platform offering numerous ways to make learning interactive and collaborative. The primary purpose is to encourage our young learners to take ownership of their learning through use of technology. Students can access information related to project work, assignments, research work, YouTube videos, etc. Class announcements and due dates for the project work can also be viewed on it.

Your ward's login ID and password will be shared with you and your ward at the earliest. It is our sincere request to you to please ensure your child visits Google Classroom every alternate day to get updates.

Some DON'Ts:

- Kindly DO NOT treat this platform to discuss your ward's progress with the class teacher/subject teacher. Please continue to use the Almanac and email as a regular mode of communication with the teacher.
- Classwork will not be shared on a regular basis. Only important topics/sub topics and assignments may be shared for concept building and reinforcement at home.
- Please DO NOT share your doubts or grievances on this platform.

As Henry Ford said, "Coming together is a beginning; keeping together is a progress; working together is success".

Looking forward to your continued support,

With regards,

Richa Sharma Agnihotri
Principal
