

Happy New Year 2019

Every new beginning brings with it anticipation, wonder and delight at the prospect of traversing the uncharted realms of our world. We cannot help one last wistful glance at 2018 as we step with excitement into the nineteenth year of this millenium. While we revel in the glorious moments of the months gone by, we also resolve to learn from every experience of 2018 and strive to learn, work and embrace every moment with the passion born out of thirst for knowledge. The knowledge we seek goes beyond the leaves of a book. It teaches us to care, to feel and to give. I hope that our journey through 2019 will strengthen the vibrant thread of humanity which binds us all irrevocably. I see every Sanskritian awaken in herself or himself the light of self-realisation which will lead her or him to the ultimate goal of success- as an individual and as part of a mindful community. The journey towards this goal is a beautiful one and let us all- parents, students and educators- join hands as we endeavour to continue to be one of the luminaries in the world of learning.

With this resolution for 2019, I wish every Sanskritian a year of happiness, contentment and fulfilment. May it illuminate every facet of our lives!

Richa Sharma Agnihotri
