

Healthy Food Festival

Health is wealth. Eating healthy to stay healthy is very important in this modern world. Eating a balanced diet is the crucial part to keep us healthy. To make our little ones aware about the importance of healthy eating habits and to give them exposure of community eating a Healthy Food Festival was organised by grade I on 22nd and 23rd Nov .Three sections played the role of hosts and three sections were guests . Children made invites for the guest sections to invite them for the occasion. Yummy bhelpuri, sandwich, coconut ladoos and lemonade were served by the host class to the children when they visited their class . This activity helped to develop table manners in children and they thoroughly enjoyed the feast .
