

### Learning center visit to Kidzania

On 24<sup>th</sup> April, the children of Learning Centre were taken for a trip to Kidzania. Kidzania is a place for hands on experiential learning for children between 6-15yrs of age. At Kidzania a kaleidoscope of activities are managed professionally by an efficient staff. The sheer wonder on young faces as they participated in activities was a joy to behold . The children experienced miniature versions of employment options and learned through role-play. They were given dummy currency called kidzos. Kids In the group of 5-7yrs could join these activities. Some were spending activities and a few were earning ones. This was an invaluable, hands-on experience to learn money transactions.

Overall it was a wonderful exposure for children where they got multiple opportunities to learn and play.
