

Dear Parents,

Greetings! As we all know, cyber safety is a growing concern amongst young children. We, the teachers and parents, as mentors need to address this issue in a pro-active manner. In this regard, the school is conducting a workshop on Cyber Safety and Cyber Bullying for junior school parents. The session will focus on the following areas-

1. Internet safety
2. Device safety
3. Cyberbullying
4. Must have measures for both parents and young children

It is recommended that parents carry their mobile devices/tablets for hands on experience.

I expect active participation from your end so that we, as a team, are well equipped to deal with this issue. The details are as follows:

Date: April 7, 2018

Venue: Conference Room

Time: 9:45 am to 10:45 am

Warm regards

Suruchi Lal

(Junior School In-charge)
