In these unprecedented times children are having to reinvent themselves and do things they are not used to doing. It is not easy for our little ones to stay indoors all the time. We realize how difficult it is for them to stay home, not come to school, meet their friends and be with their teachers.

The work we have created is not meant to add to their stress but to keep them gainfully occupied and review all the concepts taught to them in the previous class. In addition to that please do spend time reading to and with your child as once they get engrossed in the world of books they will never feel alone.

" Children must be taught how to think, not what to think ".

-Margaret Mead
