

CLASS – XII , POLITICAL SCIENCE
SAMPLE QUESTION BASED ON VALUES

Q1. *“Pursuing Economics development without causing further damage to the global environment is a major challenge before the states”. States shall cooperate in the spirit of global partnership to conserve protect and restore the health and integrity of the Earth’s ecosystem. In view of the different contributions of global environmental degradation, states have common but differentiated responsibilities. The developed countries acknowledge the responsibility that they bear in the international pursuit of sustainable development in view of the pressures their societies place on the global environment and of the technological and financial resources they command.*
