

Visit to a Farm

"Let Nature be your teacher"- William Wordsworth

Keeping this in mind, the children of grade Prep were taken for a visit to the AUM FARM on 30th October 2018. As soon as they reached the farm, they were taken to the 'Enchanted garden' where they were delighted to see the different story corners. Then they got an opportunity to see the farm animals in their local environment. They walked through the cow sheds and saw milking of the cow. Observing different kinds of plants and vegetables was a great learning experience for the little ones. The pony ride was an icing on the cake as the children eagerly waited for their turn. After all these fun activities, children had a relaxing picnic lunch and free play time. A day filled with fun and memories, ended with a joyful ride back to the school.
