Paper bag making for Indian Cancer Society

As our first initiative, The department of Community Service participated in an event organised by the Indian Cancer Society. The WHO theme for World No Tobacco Day 2019 was “Tobacco and Lung health”. For this programme the students of Classes 6-8 designed a paper bag on a half folded newspaper. The best three bags were sent to the Indian Cancer Society for final selection. A demo video for making paper bags was shared with the students. All the paper bags were displayed in the Senior School central courtyard.
